## A CLOSER LOOK

Each tile is designed and manufactured with state of the art technology to ensure structural integrity & high precision. The perfect composition of each tile bring unmatched elegance to every roof. Discover new Piano series , made for excellence.

### HIGH DEFINITION ON EACH PIECE

Perfectly fine moulds give precise alignments and quality composition

### LOWER ABSORPTION

High temperature processing provides low water absorption and high frost resistance

### WATER TIGHT

Well crafted multiple inter locking system makes Lamit roofing

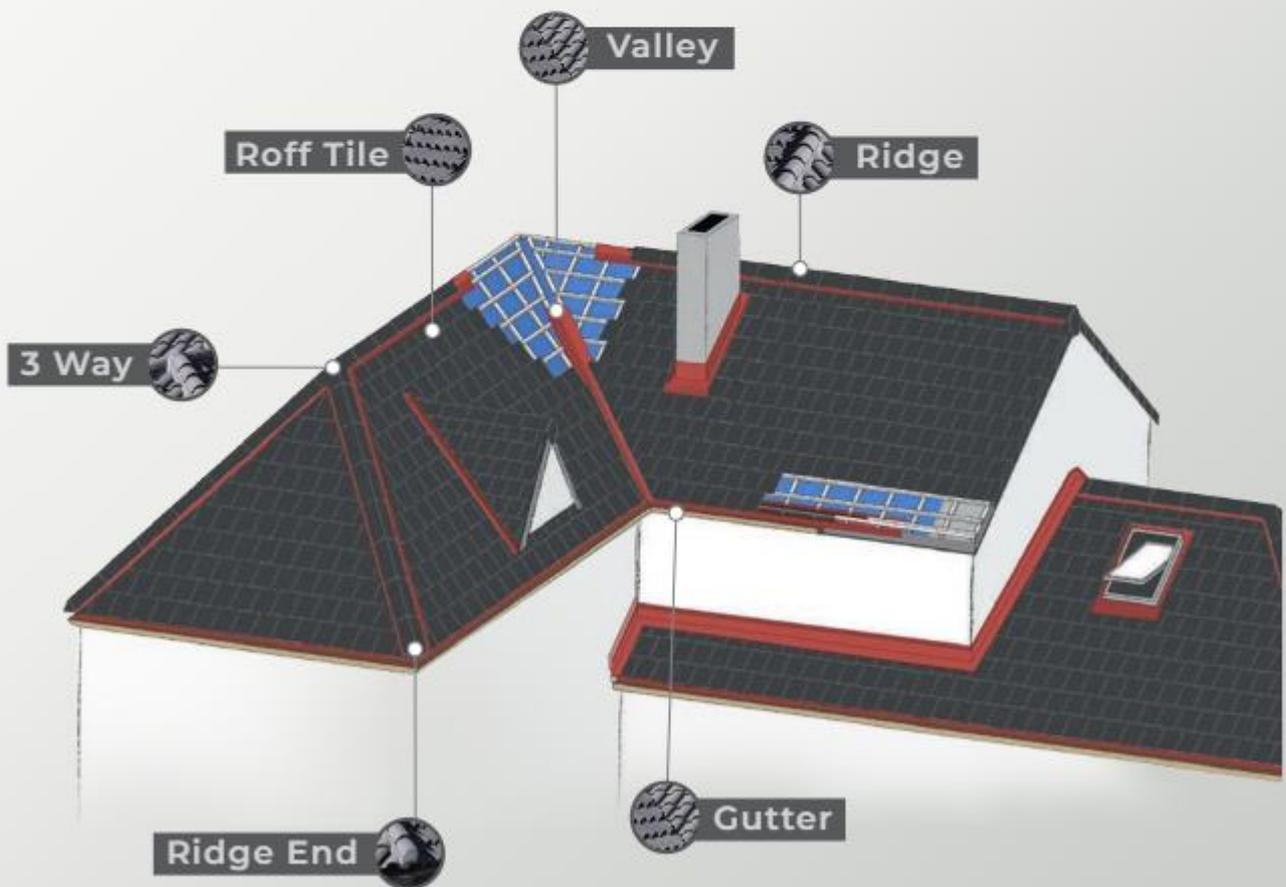

### EXCELLENT FLATNESS

The Gypsum moulds and cassette production process provide perfect shape and fine smooth/ texture surface

### COST EFFECTIVENESS

Its larger format [9.5 units/m<sup>2</sup>] result in reduced cost
